# Key Learnings

## Mastering Strategic Finance and Company Valuation for Value Creation

### Course Objective

Strategic Finance course will empower you with the latest financial tools and insights into emerging trends to drive value for your organization.

### Financial Statement Analysis

Attain mastery in dissecting financial statements to guide strategic decision-making.

### Financial Health Check

Develop an ability to perform comprehensive financial health checks to assess organizational well-being for value creation.

### Usage of Key Financial Performance Metrics

Gain comprehensive insight into CAGR, WACC and ROIC to reveal drivers of financial performance and make better investment decisions.

### Value Creation Exercise

Reveal drivers of financial performance using ROIC decomposition exercise to create value.

### Risk Management Techniques

Discover various methods for risk identification, assessment, and mitigation across financial landscapes.

### Company Valuation Mastery

Dive into real scenarios, using company valuation techniques to understand strategic decision-making in corporate business valuation.

### Post A&D Strategy Implementation Plan

Devise a thorough strategy to ensure seamless transitions in post-acquisition or divestment scenarios, aligning with a strategic objective.

### Collaboration & Teamwork Elevation

Elevate collaboration and teamwork through interactive exercises and case studies, fostering an environment of collective excellence.
